GLS SUICIDE PREVENTION NATIONAL OUTCOMES EVALUATION
NOE DESIGN OVERVIEW

CORE & ENHANCED STUDY ANALYSIS
(Including Implementation and Proximal Outcomes)

- Continuity of Care Study: Assessing system conditions, capacity, and infrastructure.
- Exploratory Study of Factors Influencing Care
- Training Study: Assessing grantee training activities, settings, and recipients.
- Suicide Safer Environment: Assessing grantee and provider practices within healthcare settings.
- Quasi-Experimental Study Utilizing Medicaid Data
- Randomized Control of Role Play and Booster Training

Cross Program Analysis and Impact:
Addresses evaluation questions that cut across the three studies (core and enhanced) and utilizes secondary data sources as well as data collected from currently and previously funded grantees to assess the impact of suicide prevention activities on ultimate outcomes such as mental health service utilization, suicide attempts, and suicide deaths and explores where feasible the cost of implementation relative to the impact.

TOOLS TO SUPPORT PSI DATA COLLECTION AND REPORTING

✓ PSI Tip Sheet and Strategy Definitions
✓ PSI Data Sharing Report
✓ PSI Summary Report
✓ PSI Planning and and Strategy Tool
TIPS AND REMINDERS

• Prevention strategies should be included once they are beyond the planning phase
• Examples of information that should not be included: holding or attending meetings, attending a SAMHSA, ICF, or SPRC webinar, monthly team calls, hiring grant staff
TIPS AND REMINDERS

- The PSI is cumulative! You should not delete strategies that have been completed.
- If an activity existed prior to your GLS grant, and GLS funds will continue to support the activity, then it should be reported in the PSI.
- Strategies that are implemented using GLS funds, matched funds, in-kind contributions or a combination of GLS, matched funds and in-kind contributions should be reported on the PSI.
- If you have implemented a certain strategy type, but have not spent any of the budget in that area, just enter 0%.
TIPS AND REMINDERS

• Report both the amount of GLS funds and matched funds or in-kind contributions spent from the beginning of the grant through the end of the reporting quarter.

• You can still submit your PSI even if 75% of your budget has not been accounted for.

• You cannot report a percentage of dollars spent in an area where you have not reported a strategy.
PSI NEXT STEPS

• Review the PSI Manual and Tip Sheet

• Log in to the PSI using your password (beginning 1/9)

• Enter strategies and budget information from Q1 (October-December 2016)

• Final submit your PSI by January 27th at 8 PM Eastern

• If you determine, after reviewing the materials, that you do not have any data to enter OR if you cannot complete by January 27th, contact PSI Data Collection Lead or the Campus TAL as soon as possible

<tr>
<td><strong>When will the SBHF be administered?</strong></td>
<td>Annually in early Summer</td>
</tr>
</tbody>
</table>
STUDENT BEHAVIORAL HEALTH FORM (SBHF) PURPOSE

• Includes collection of information on the implementation of Suicide Safer Environment care practices from campus health care providers as well as the annual number of suicide attempts and deaths as a source of long-term outcome data
STUDENT BEHAVIORAL HEALTH FORM (SBHF) IMPLEMENTATION AND LOGISTICS

- All campus grantees will participate in the SBHF in early summer

- The SBHF is a web-based survey on the SPDC

- The SBHF administrator will receive a password to access the survey
WHAT MAKES A GOOD SBHF ADMINISTRATOR?

- Available to complete the SBHF in late spring/early summer
- Has access to behavioral health records for the campus (either tracks them directly or can compile them from various sources)
POLL: DO YOU ALREADY KNOW WHO YOUR SBHF ADMINISTRATOR WILL BE?

Yes
No
IMPLEMENTATION AND LOGISTICS

- The instrument includes a mix of **quantitative** questions (e.g., how many suicide attempts occurred on campus?) and **policy** related questions (e.g., after a suicide attempt, what happens?).
IMPLEMENTATION AND LOGISTICS

• Data in the SBHF will be reported for the current academic year (approx. September 2016- May 2017) and the FOUR academic years prior to the grant

• At the end of the grant, you will have data for a total of 7 academic years
SEVEN YEARS OF DATA:

FOUR YEARS PRIOR TO THE GRANT
Fall 2015-Spring 2016
Fall 2014-Spring 2015
Fall 2013-Spring 2014
Fall 2012- Spring 2013

CURRENT ACADEMIC YEAR
Fall 2016-Spring 2017

ADDITIONAL GRANT YEARS
Fall 2017- Spring 2018
Fall 2018-Spring 2019

To be reported in Summer 2017
DATA ELEMENTS

- Student use of behavioral health services (including counts of specific services)
- Campus use of standardized screenings (and screening tool)
- Linkages to community providers
- Follow-up support
- Student suicide attempts
- Student deaths by suicide
KEY CONCEPTS
Behavioral Health Services - mental health or substance use services provided on campus

Health Record System - may include an excel tracking sheet, electronic health records (e.g. Titanium), case files
POLL: HOW DO YOU CURRENTLY TRACK INFORMATION RELATED TO BEHAVIORAL HEALTH SERVICES?

EHR SYSTEM
SPREADSHEET
PAPER FILES
NO TRACKING
DON’T KNOW
POLL: ARE YOU CURRENTLY ABLE TO DETERMINE AN UNDUPLICATED COUNT OF STUDENTS RECEIVING BEHAVIORAL HEALTH SERVICES?

YES
NO
NOT SURE
KEY CONCEPTS

- **Academic Year** - typically, fall and spring semesters

- **Tracked versus Estimate** - are the numbers provided from an accurate database, or are they estimates of the number of students (potentially from multiple on campus sources and it cannot be determined if these counts are duplicated)
KEY CONCEPTS

• Suicide screening - may include formal, informal, self assessments to determine suicide risk or depression
  – How many students were screened?
  – Who is screened? (e.g. universal screening)
  – What instruments or tools are used for screenings?
  – How many students were identified as at risk of suicide/scored positive?
KEY CONCEPTS

• Services for students at risk for suicide-

  – Of the students identified at risk, how many received BH services?
  – How many students are referred from self referral, peer, health services, faculty, parent?
KEY CONCEPTS

• Services for students at risk for suicide:

  – How many students received behavioral health counseling, medication management, crisis services, initiation of an on-campus emergency protocol?

  – How many students were referred to off-campus services?

  – What are the protocols for following up with referrals?
KEY CONCEPTS

• **Services for students at risk for suicide—**
  
  – What is the approach for determining whether someone poses high risk?
  
  – What is the process for managing students who are determined to be at high risk?
  
  – What postvention services are available?
KEY CONCEPTS

• Suicide attempts—According to the CDC, a suicide attempt is a non-fatal self-directed potentially injurious behavior with any intent to die as a result of the behavior. A suicide attempt may or may not result in injury. If the intent of the student is unknown, or the student denies that they intended to die, do NOT include this in the count. Should reflect the number of attempts, not the number of students.
  – Gender
  – Age
  – Source of information
  – Campus policies for a student who attempted suicide
KEY CONCEPTS

• Suicide deaths
  – Gender
  – Age
  – Source of information
POLL: DO YOU CURRENTLY TRACK SUICIDE ATTEMPTS AND DEATHS?

YES

NO

NOT SURE
STRATEGIES FOR COMPILING DATA

START NOW!
STRATEGIES FOR COMPILING DATA

Gathering data from various on-campus sources: The campus reported establishing a Student of Concern Committee which receives information from a variety of sources, Public Safety, the Dean of Student’s Office, Student Health Services; all faculty and staff report using a campus-wide software. The off campus police report to the Dean of Students Office. In addition, they have a community relations person who could be contacted by the surrounding area about students
STRATEGIES FOR COMPILING DATA

Creating a data sharing agreement with the local hospital to gather suicide attempt information for off-campus students

Modifying the on-campus EHR to reflect the services included on the SBHF

Connect with all appropriate parties on campus
**STUDENT BEHAVIORAL HEALTH FORM (SBHF) TIMELINE**

Identify a SBHF Administrator to compile and enter data

Determine sources of information for data elements—this may require coordination with multiple on and off-campus sources

An email will be sent to the project staff to identify the SBHF administrator

SBHF Administrator will receive an email with a password for the web-based survey

The Administrator will have several weeks to complete the data entry for the current year and the four years prior to the grant

TAL will confirm SBHF Administrator

Administrator will complete data for academic year
